

SARTHAK PATIL

Full Stack Developer | AI Enthusiast

91-8369191980 | sarthaksp301@gmail.com | Mumbai, Maharashtra

SUMMARY

Computer Engineering student with hands-on experience in building responsive web applications and backend APIs. Strong problem-solving skills, eager to learn new technologies, and interested in developing scalable software solutions. A collaborative team player with good communication skills and the ability to adapt quickly to new challenges.

PROJECTS

Farm2Table: An E-commerce grocery website

Designed for showcasing and purchasing variety of groceries

- Product Listings: Display grocery items with images, prices and descriptions
- Search and Filter: Quickly find products using search functionality.
- Responsive Design: Optimised for all devices including mobiles, tablets and desktop
- Elements: Includes Dynamic shopping cart and other JavaScript features

SupportHUB: A Donation web application

Specially Designed for money Donation and Retrieval

- Built Get Me Chai using Next.js React to create a fast, scalable, and SEO-friendly web application.
- Utilized Next.js routing and layouts to structure pages efficiently and improve navigation.
- Implemented API integration to handle user interactions such as payments and data retrieval.

SKILLS

- Frontend Development: HTML, CSS, JavaScript, React.js, Next.js, Tailwind CSS
- Backend and API: Working knowledge of Node.js, RESTful API, Fast API, Docker and Data Handling
- Programming Languages: Proficient in JavaScript Knowledge of Java and Python for problem solving
- Tools and Problem solving: Git, GitHub, VS Code
- Database: MySQL PostgreSQL
- API: REST

EDUCATION

Bachelor of Engineering in Computer Engineering

2022-2026

Rajiv Gnadhi Institute of Engineering
Versova Mumbai

EXPERIENCE

InternVision | [15 July, 2025] – [20 Sept, 2025]

- Collected, cleaned, and processed raw datasets to ensure accuracy and consistency for analysis.
- Developed Excel and Power BI dashboards to visualize key metrics and trends. Performed statistical analysis to identify patterns and provide actionable insights to the team.
- Collaborated with supervisors to present findings and recommendations for process improvements.
